A Don Bosco Institution of Higher Education, Founded in 1951 * Affiliated to Thiruvalluvar University, Vellore * Autonomous since 1987

Accredited by NAAC (4th Cycle – under RAF) with CGPA of 3.31 / 4 at 'A+' Grade

Name of the Programme: MA Economics

S No	Title of the Paper	Course Code	Course Objectives	Course Outcomes	Relevance
1	ADVANCED MICRO ECONOMIC THEORY – I	E748	<ul style="list-style-type: none"> To learn understand micro economic theories and models. To study traditional demand theories and its functions. To understand modern demand theories and its functions. To demonstrate costs and production functions. To evaluate and use the various game theory model. 	<ul style="list-style-type: none"> Understanding economics models and methodologies. Applying traditional demand theories in business. Analysing modern demand theories in business. Evaluating cost and Production functions. Constructing game theory models in business. 	National
2	ADVANCED MACRO ECONOMIC THEORY – I	E749	<ul style="list-style-type: none"> To learn understand the importance of macro economics. To study the National Income and circular flow of Income. To understand classical and Keynesian theory of employment and output. To demonstrate Consumption and Investment functions. 	<ul style="list-style-type: none"> Understanding the importance and principles of macroeconomics. Comparing national income measurement and circular flow of income. Analysing the classical and Keynesian theory of employment and output. Assessing the consumption and investment patterns. 	National

			<ul style="list-style-type: none"> To evaluate ISLM functions. 	<ul style="list-style-type: none"> Evaluating the effectiveness of ISLM functions. 	
3	STATISTICS FOR ECONOMICS	E750	<ul style="list-style-type: none"> To learn about probability, distributions and random variables. To study various parameters of sampling and population. To understand various methods of estimation. To demonstrate the various sampling techniques and time series analysis. To evaluate the validity and reliability of the co-variation. 	<ul style="list-style-type: none"> Comparing theories of probability and distribution Understanding the sampling methods with statistical inference. Analysing the least square methods and confidence interval estimates. Applying different sampling techniques in Social Science Research. Evaluate and develop the regression model in economic application. 	National
4	ELECTIVE -I DEMOGRAPHY	E752A	<ul style="list-style-type: none"> To learn the population growth and economic developed in developing countries. To study the concepts of demography and the vital statistical indicators. . To understand the population census to frame the suitable Government policies. To demonstrate the techniques of population projection., To evaluate the new population policy and its implementations for development strategy. 	<ul style="list-style-type: none"> Classifying population and economic growth in developing and developed countries. Comparing demography and vital statistics. Applying diverse techniques in measurement of population studies. Analyzing the measurement of population projection and aging population. Evaluating different new population policies for growth and development. 	National

5	ELECTIVE I: HISTORY OF ECONOMIC THOUGHT	E752B	<ul style="list-style-type: none"> • To learn understand the context of socialistic ideas. • To study the ideas of different marginalist schools. • To understand the economic ideas of Neo-Classical school. • To demonstrate the different economic ideas of pre-independence of India. • To evaluate major economists in the post-independence of India to build modern economic ideas. 	<ul style="list-style-type: none"> • Practicing socialistic ideas of St. Simon, Sismondi, Robert Owen and Karl Marx in economic world today. • Comparing and contrasting different contributions of marginalists school. • Analyzing the current macroeconomic debate between Neo-classical and the Keynesian school. • Interpreting and analyzing the early and modern economic ideas of Kautilya, Thiruvalluvar, Naoraji, Ranade and Gandhi. • Critically analyzing the applicability of early approaches to planning in relation to the economic world today. 	National
6	ELECTIVE I: ECONOMICS OF INFRASTRUCTUR E	E752C	<ul style="list-style-type: none"> • To learn understand the basic concepts of public utility services. • To study social physical infrastructural theories. • To understand the health care services and new education. • To demonstrate the basic amenities and pricing policy in rural and urban areas. • To evaluate different forms of social infrastructural services. 	<ul style="list-style-type: none"> • Relating the basic public utility services. • Applying the different public utility services and its development. • Analysing the demand and supply of health care and educational services. • Examining the basic utility services and pricing. • Constructing the social infrastructural services. 	National

7	ADVANCED MICRO ECONOMIC THEORY-II	E855	<ul style="list-style-type: none"> To learn relevant perfect market structure. To study the nature of imperfect market structure. To understand factor pricing under perfect market structure. To demonstrate factor pricing under imperfect market structure. To evaluate knowledge on general equilibrium and welfare economics. 	<ul style="list-style-type: none"> Understanding the relevance of perfect market structure. Comparing the nature of imperfect market structure. Analysing the factor pricing in perfect competitive market. Examining the trade union and rent theories Evaluating the general equilibrium theory and welfare economics. 	National
8	ADVANCED MACRO ECONOMIC THEORY – II	E856	<ul style="list-style-type: none"> To learn economic fluctuations and its related theories. To study about policy measures to control trade cycle. To understand macroeconomic policies in present scenario. To demonstrate in decision making to achieve desired economic goals. To evaluate understand macroeconomic policies. 	<ul style="list-style-type: none"> Understanding about economic fluctuations. Applying policy measures to control trade cycle. Expertizing in principles of macroeconomics. Evaluating modern macroeconomic theories and policies. Creating macroeconomic variables at national and global level. 	National
9	MATHEMATICS FOR ECONOMISTS	E857	<ul style="list-style-type: none"> To learn matrices and its different components. To study differentiation with various economic theories. To understand the strategies of game theory. To demonstrate about input-output analysis. To evaluate about the integration calculus. 	<ul style="list-style-type: none"> Illustrating of matrices in various economic methods. Expertizing of differentiation on diverse economic theories. Constructing of game theory models with business strategy. Evaluating the input-output models. Composing of integral calculus in economic theories. 	National

10	MANAGERIAL ECONOMICS	E858	<ul style="list-style-type: none"> • To learn enhance managerial principles with business activities. • To study the theoretical knowledge towards firm. • To understand the pricing practices in managerial aspect. • To demonstrate about the project analysis. • To evaluate the techniques of investment appraisal. 	<ul style="list-style-type: none"> • Understanding the different managerial principles in business. • Practicing behavioral theories in decision-making. • Implying pricing practices. • Analysing the risk and uncertainty situation. • Assessing sales promotion strategies and investment appraisal. 	National
11	ELECTIVE II: INDUSTRIAL ECONOMICS	E859A	<ul style="list-style-type: none"> • To learn the fundamentals of Industrial Economics. • To study different theories in Industrial location. • To understand Indian industrial growth and pattern. • To demonstrate industrial labour legislation and labour market. 	<ul style="list-style-type: none"> • Understanding the fundamental ideas in Industrial Economics. • Applying different theories of Industrial location. • Comparing the Indian industrial growth and pattern. • Appraising of industrial labour legislation and labour market. 	National

			<ul style="list-style-type: none"> To evaluate industrial concentration and its diversification. 	<ul style="list-style-type: none"> Assessing the industrial concentration and analyze the diversification. 	
12	ELECTIVE II: ECONOMICS OF URBANISATION	E859B	<ul style="list-style-type: none"> To learn the structure of urban economics. To study the theories of urban economics. To understand the trends in urban housing and labour market. To demonstrate about the problems of urbanisation. To evaluate the modern approach of growth strategies. 	<ul style="list-style-type: none"> Understanding the nature and structure of urban economics. Examining the theoretical knowledge of urban economics. Applying suitable policies in upgrading the structure of urbanization. Assessing appropriate policies in urbanization problems. Evaluating the government policies on various aspects of urban development. 	Natioanal
13	ELECTIVE II: ECONOMICS OF GENDER AND DEVELOPMENT	E859C	<ul style="list-style-type: none"> To learn feminist economics and challenges. To study the importance of women and labour market. To understand the role of technology for women empowerment. To demonstrate social security and gender policies. To evaluate gender and the relevance of different policy. To understand the overview of Indian EXIM and Foreign Trade Policies over the years. To appraise on existing policy framework and promotional measures related to exports and exporters. 	<ul style="list-style-type: none"> Understanding the concepts of gender economics and its challenges. Identifying the nature of labour market for women Applying gender relations for developmental process. Apprising social security and protection measures for women. Creating ideas about the different gender policies. Examining the features of EXIM and Foreign Trade Policies over the time period. Analyzing the existing policy framework and better understanding of various export promotion measures. 	National

14	PUBLIC ECONOMICS	E941	<ul style="list-style-type: none"> • To understand the concepts of public finance and provisions of social goods. • To enable them to understand different tax theories. • To study the effects of public expenditure and public debt. • To study about the preparation of the budget statement. • To understand the functions of finance commission in India. 	<ul style="list-style-type: none"> • Using the basic tools, concepts and models to solve problems in key areas of public Economics • Analysing the different theories of taxation and challenges facing by the governments. • Knowing the causes and growth of public expenditure and debt in India • Providing guidelines to prepare the budget for state and local governments. • Estimating the different tax was distributed to the state and the local government 	National
15	MONETARY ECONOMICS	E942	<ul style="list-style-type: none"> • To enable the students of economics to understand theories and practices monetary economics. • To analyse the interconnection between the classical and neo classical theories on money. • To shaping and influencing the monetary related policies. • To focus on the Money and Assets relationships in economic activities • To know the due relevancies of risk – 	<ul style="list-style-type: none"> • Developing monetary theory, to the effects of monetary variables on the macroeconomic system. • Understanding the theories of both classic and neo-classic theoretical conditions. • Learning the monetary policies undertake by the central government and the recent financial reforms. • Making the students to realize the importance of time factor in every human activity 	National

			return theory in every business activity of Industrialists and life of human beings	Inducing the students to analyze the banking and the financial operations and activities in all fields' developments.	
16	RESEARCH METHODOLOGY	E943	<ul style="list-style-type: none"> • To understand basic concepts of research Methodology. • To select suitable research and sampling design. • To organize and conduct research in a more appropriate manner. • To enhance the application knowledge to test the hypothesis. • To improve the skill of writing research report and thesis. 	<ul style="list-style-type: none"> • Demonstrating the knowledge of research processes. • Developing research design in using specific research. • Compare quantitative and qualitative research paradigms in describing sampling methods, measurement scales and instruments, and appropriate uses of each scales. • Describe, descriptive inferential statistics and provide application knowledge • Expertise in drafting the research report and thesis. For the specific career aspiration in higher education. 	National

17	HEALTH ECONOMICS (ELECTIVE OPTIONAL)	E944B	<ul style="list-style-type: none"> To apply economic concepts and to analyze issues in health and health care systems. To accumulate choices of the production efficiency in health care. To identify the supply and cost benefits in health care services. To understand the principles and techniques of economic evaluation of health interventions. To analyze health policy issues within the Indian context. 	<ul style="list-style-type: none"> Understanding the economic approach and analyzing social issues. Identifying the inputs and output sources of production in health care. Learning the needs for health care services. Evaluating the economic benefits in health care. Analyzing the efficiency and quality of health care organizations. Describing the rationale for performing economic evaluation and the economic principles in health care. 	National
18	PERSONNEL MANAGEMENT (ELECTIVE OPTIONAL)	E944C	<ul style="list-style-type: none"> To develop an understanding of the personal management. To understand the various aspects of human resource management. To know about the various recruitment and selection process in the industries. To know more about the selection, induction and socialization process in HRM. To understand the virtual organization in personnel management. 	<ul style="list-style-type: none"> Applying personnel management concepts in to industries. Investigating different personnel management problems. Executing the human resource planning for the betterment of the organization. Applying the knowledge on recruitment, selection, placement, motivation, training and induction in HRM process. Working efficiently and innovatively in virtual platform for the development of the organization. 	National
19	DATA ANALYSIS AND	E945S	<ul style="list-style-type: none"> To provide knowledge on Econometric tools and their 	<ul style="list-style-type: none"> Expertising in doing econometric analysis and tools for conducting 	National

	INTERPRETATION		<p>applications.</p> <ul style="list-style-type: none"> To learn basic programming languages that is useful for econometric analysis. To learn the use of Models and interpret data in the presence of research problems. To provide knowledge of how to graph and display the results of programming. To enable the students to access SPSS software in applying economic research. 	<p>research studies.</p> <ul style="list-style-type: none"> Understanding of Interpret the estimates of econometric models. Evaluating results to graph and display the results of programming. Enabling the students to learn the technique of estimating Econometric Models Training to apply basic econometric techniques like correlation and regression. 	
20	INDIAN ECONOMY: ISSUES AND POLICY	E1039	<ul style="list-style-type: none"> To study the basic characteristics of economic development and economic growth. To realize the causes and measures of poverty inequalities and unemployment. To study the agriculture and industrial development trends in India. To examine the necessity of financial systems in India To evaluate the trade policies of India 	<ul style="list-style-type: none"> Learning recent economic affairs and development schemes in India. Understanding various economic issues at local, national and global level. Discussing the development of agriculture and industry. Evaluating the position of financial sectors of Indian economy Elucidating the trade and development of our state. 	National
21	ENVIRONMENTAL ECONOMICS	E1040	<ul style="list-style-type: none"> To provide a comprehensive introduction to the economic analysis of issues arising from the interactions between the natural environment and the human economy. It focuses on the ecosystem-services and the challenges arising due to 	<ul style="list-style-type: none"> Equipped the ability to explain core economic terms, concepts, and theories. Addressing the environmental issues in relation to the theory of externalities, public goods, and welfare. Demonstrating the economic principles 	National

			<p>pollution.</p> <ul style="list-style-type: none"> • To highlight the nature of market failure in resources allocation along with issues of social welfare. • To introduce various methods and techniques of valuation of non-tradable environmental goods and services on the one hand and economics of pollution control on other side. • To introduces developmental issues relating to trans-boundary and global pollution (climate change) and policies for their mitigation and control. 	<p>concerning the choice of instruments for controlling pollution by using theories.</p> <ul style="list-style-type: none"> • Using or Applying different methods for valuing environmental goods and services. • Taking up contemporary environmental discourse from an economists' point of view. 	
22	INDIAN PUBLIC FINANCE (ELECTIVE OPTIONAL)	E1041A	<ul style="list-style-type: none"> • To motivate the students about functioning of finance commission in India • To understand the relationship between central, state and local finance. • To know about Indian tax system • To create knowledge about public expenditure and public debt in India. • To Study deficit finance and its impact in India 	<ul style="list-style-type: none"> • Knowing the constitutions regarding financial powers between central and state governments. • Understanding the students about the tax system in India • Calculating GST in different product • Estimating the growth of public expenditure and debt in India • Enabling the students to understand the sources of central, state and local finance. 	National
23	FINANCIAL INSTITUTIONS AND MARKETS (ELECTIVE OPTIONAL)	E1041C	<ul style="list-style-type: none"> • To familiarize the students with the structure and composition of the financial system. • To explain the concepts of Interest rates in the monetary system 	<ul style="list-style-type: none"> • Acquiring knowledge of financial institutions. • Analysing the structure of interest rates in the monetary system. • Acquiring the policies implementing on 	National

			<ul style="list-style-type: none"> • To understand the quantitative and qualitative tools of monetary policy. • To identify the non-banking financial intermediaries' activities. • To facilitate an understanding of the functioning of the money and capital markets in an economy. 	<ul style="list-style-type: none"> • Learning the nature of financial instruments on banking and non-banking financial intermediaries. • Understanding the conceptual framework of financial market and institutions of India. 	
24	LABOUR ECONOMICS AND INDUSTRIAL RELATIONS	E1042A	<ul style="list-style-type: none"> • To learn the theoretical and empirical aspects of labour markets. • To understand the labour law and its practices. • To study the role of labour and their relations in industries. • To provide the students a foundation of knowledge of organizations. • To make students aware of various aspects of social security. 	<ul style="list-style-type: none"> • Enabling the students to labour relations in urban and rural settings under capitalism. • Developing the ability to analyze labour policy related issues in labour economics. • Understanding the acquisition of education as an investment for the labour supply. • Familiarizing the students with important labour legislations in India. • Expertising to the empirical analysis of contemporary issues in labour economics. 	National

25	SECURITY ANALYSIS AND PORTFOLIO MANAGEMENT	E1042B	<ul style="list-style-type: none"> • To familiarize with the importance of financial market. • To study portfolio management with low level of risk. • To disseminate with risk and return. • To know about the diversification of business. • To illuminate the management analysis, financial analysis and operating analysis. 	<ul style="list-style-type: none"> • Observe and annotate money, bond markets counter trading and clearing • Listen and explain the portfolio construction, diversification and capital market theory • Generalize and elicit risk and return investment avenues, portfolio management • Articulate and categorize risk premium, market portfolio, and expected return • Justify environment analysis, company analysis, and management analysis 	National
