Ready for
Every Good Work

A Don Bosco Institution of Higher Education, Founded in 1951 * Affiliated to Thiruvalluvar University, Vellore * Autonomous since 1987

Accredited by NAAC (4th Cycle – under RAF) with CGPA of 3.31 / 4 at 'A+' Grade

Name of the Programme: BA Economics

S No	Title of the Paper	Course Code	Course Objectives	Course Outcomes	Relevance
1	ECONOMIC THOUGHT	E120	<ul style="list-style-type: none">To gain knowledge on the perception of economic thinking of mercantilism and physiocracy.To understand the logical foundations of the Classical School in Economics.To identify the different Neo-Classicals and their contributions in economics.To understand the different types of demand for money in terms of Keynesian ideas.To compare the recent Indian economic thought with classical economic thought.	<ul style="list-style-type: none">Understanding of the ancient and medieval economic thoughts.Comparing the logical foundations of the Classical School in economics.Developing the different Neo-Classicals and their contributions in economicsApplying the Keynesian ideas for various types of demand for moneyAnalysing and evaluating the modern economic ideas.	Global

2	MICRO ECONOMICS - I	E218	<ul style="list-style-type: none"> To gain knowledge about the fundamentals of micro economics. To learn the traditional method of demand analysis To understand modern method of demand analysis To learn the production function and its related laws. To know the various concepts of costs and revenues. 	<ul style="list-style-type: none"> Understanding the fundamental division of micro economics. Comparing traditional theories of consumer behaviour with demand analysis. Analysing modern theories of consumer behavior with demand analysis. Evaluating production functions and its application. Appraising traditional and modern theories of costs and Revenues. 	Global
3	MATHEMATICS FOR ECONOMICS	E219	<ul style="list-style-type: none"> To give knowledge and understanding of mathematical concepts in terms of set theory. To make the students to learn matrices and its different components. To offer a platform for measuring skills in terms of lines and curves. To provide mathematical techniques in derivation of various functions in economic concepts. 	<ul style="list-style-type: none"> Understanding set theory and its applications. Applying matrix methods in different economic theories. Expertizing the application of differentiation to diverse economic functions. Constructing and measuring through graphical solutions. Integrating economic theories with mathematical applications. 	Global
4	PRINCIPLES OF ECONOMICS - I	AE106	<ul style="list-style-type: none"> To introduce basic economics concepts. To gain basic knowledge of the operation of the business economics To understand the theory of consumer's behaviour in business. To explore the theory of producer's 	<ul style="list-style-type: none"> Gaining knowledge of the basic economic principles. Applying traditional utility analysis in business. Analysing consumer behaviour in modern business situations. Appraising producer behaviour in 	Global

			behaviour in business strategies. <ul style="list-style-type: none"> To imparting knowledge about market structures. 	modern business. <ul style="list-style-type: none"> Evaluating the role of time and competitions in market. 	
5	PRINCIPLES OF ECONOMICS - II	AE206	<ul style="list-style-type: none"> To understand demand forecasting methods. To study national income concepts. To laying down the foundation of theory of public finance To acquire knowledge on monetary policies and Indian economic system in India. To explore about the Indian economic issues on sectors in Indian economy. 	<ul style="list-style-type: none"> Acquiring knowledge in demand forecasting for Business solutions. Enabling to understand macro economic variables. Exploring the financial system of Indian economy. Enable the Students to get familiarity on the reforms in banking industry in India. Evaluation of sectoral relationship of the various sectors in Indian Economy. 	Global
6	MICRO ECONOMICS – II	E317	<ul style="list-style-type: none"> To teach concepts of Perfect competition and its features. To learn imperfect competition and its price and output determination. To understand the theory of distribution and rent theory. To know the concept of wage and its determination. To understand the concept and theories of interest and profit. 	<ul style="list-style-type: none"> Knowing the market behavior under perfect competition. Understanding the market behavior under imperfect market. Familiarizing the knowledge of traditional and modern theories of Rent. Becoming a capable in the estimation of wage determination. Applying the theories of Interest and profit. 	Global
7	MACRO ECONOMICS – I	E318	<ul style="list-style-type: none"> To study the basic macroeconomic concepts and national income. To understand the theories of employment. To learn the concept of consumption function. To know the theories of consumption function. To study the theories of investment function. 	<ul style="list-style-type: none"> Understanding the basics of national income accounting Familiarizing with the theories of employment.. Enabling the concepts of consumption function. Equipping them with theories of consumption function. Applying the theories of investment function. 	Global
8	MACRO ECONOMICS – II	E419	<ul style="list-style-type: none"> To study the working of IS-LM. To learn the concepts and theories of 	<ul style="list-style-type: none"> Understanding the general equilibrium analysis. 	

			<p>inflation and deflation.</p> <ul style="list-style-type: none"> To understand the theories of trade cycle. To study various economic growth models. To know the monetary and fiscal policy 	<ul style="list-style-type: none"> Examining the theories of inflation and deflation Assessing the theories of trade cycle. Familiarizing with growth theories. Gaining an overview of monetary and fiscal policies 	Global
9	INTERNATIONAL ECONOMICS	AE405	<ul style="list-style-type: none"> To study the concepts and theories of international trade. To learn the terms of trade, dumping, and Cartel. To understand foreign exchange control and balance of payment. To study Foreign Exchange Market and Foreign Direct Investment. To know different international financial institutions. 	<ul style="list-style-type: none"> Disseminating the concepts and theories of international trade. Describing terms of trade, tariffs, dumping, and Cartel. Illustrating foreign exchange control and balance of payments Examining foreign exchange market, foreign direct investment, and foreign capital Evaluating International financial institutions 	Global
10	INTERNATIONAL ECONOMICS	E543	<ul style="list-style-type: none"> To understand the theories of international trade. To know terms of trade and tariffs among trading countries. To learn foreign exchange control and balance of payments. To study foreign exchange market 	<ul style="list-style-type: none"> Familiarizing the theories of international trade. Describing the terms of trade and tariffs. Illustrating the foreign exchange control and the balance of payments Analysing the foreign exchange market and foreign capital 	Global

			<p>and foreign capital.</p> <ul style="list-style-type: none"> To know international financial institutions to promote international trade. 	<ul style="list-style-type: none"> Appraising the international financial institutions. 	
11	ELECTIVE:2 BASIC ECONOMETRICS	E547B	<ul style="list-style-type: none"> To study basic econometrics. To understand the application of regression analysis. To know the problems in regression analysis. To learn simultaneous equation methods. To analyze various econometric methods with economic theories. 	<ul style="list-style-type: none"> Gaining knowledge about the basic econometrics. Enabling with regression analysis. Rectifying the different problems in regression analysis. Applying the simultaneous equation methods. Appraising economic theories with econometric models. 	Global
12	ENVIRONMENTAL ECONOMICS	E643	<ul style="list-style-type: none"> To understand the environmental concepts. To explore the fundamental theories of environmental economics. To learn various economic valuation technique To study the implication of Economic growth on environmental resources To understand the recent environmental policies in India. 	<ul style="list-style-type: none"> Familiarizing the environmental concepts in day-to-day life. Describing the market failure with environmental resources. Illustrating different methods in economic valuation techniques. Analysing economic growth with environmental resources Supporting environmental policies for better quality of life. 	Global
