FEED BACK ANALYSIS AND ACTION TAKEN REPORT

UG - 2021 – 2022

Feedback Analysis:

The existing marks distribution for internal components was thoroughly discussed and evaluated. The role and importance of MOOC courses in the curriculum were examined. The structure and impact of the internship program were reviewed. Input from faculty, students, and industry partners was gathered to assess the effectiveness of the current internship model and explore opportunities for improvement. The proposal for introducing new certificate courses was discussed, including the syllabus, evaluation methodology, and the distribution of marks for the new courses. Feedback on the relevance and potential impact of these courses was sought from stakeholders.

Action Taken Report:

1. After a detailed discussion and evaluation, the Board of Studies has officially approved the revised marks distribution for internal components.
2. The syllabus, evaluation methodology, and marks distribution for the new certificate courses will be presented in the next Board of Studies meeting.
3. A proactive approach to encourage students to enroll in more MOOC courses has been adopted.
4. Based on the feedback received, efforts are underway to enhance the internship program. This includes exploring opportunities for more industry collaborations, refining the evaluation process, and providing additional support to students during their internships.

We believe that these actions will contribute to the continuous improvement of our academic programs and the overall learning experience for our students. Your ongoing support and feedback are crucial to the success of these initiatives.
