PG AND RESEARCH DEPARTMENT OF CHEMISTRY

FEED BACK ANALYSIS AND ACTION TAKEN REPORT

UG - 2022 – 2023

Feedback Analysis:

The course outcomes for these programs underwent a thorough examination during the board meeting. Faculty members, subject experts, and stakeholders provided feedback on the existing outcomes, with a focus on clarity, relevance, and alignment with cognitive levels. The guidelines for the internship program for UG students were reviewed, with input sought from board members and subject experts. The discussion covered aspects such as program structure, learning objectives, and assessment methodologies.

Action Taken Report:

1. The resolution to incorporate cognitive levels for mapping in the future has been acknowledged. Moving forward, cognitive levels will be integrated into the mapping process for course outcomes.
2. The guidelines for the internship program for UG students will be reframed based on the suggestions provided by board members and subject experts. This process involves revisiting the structure, objectives, and assessment methods to ensure they align with best practices and meet the expectations of both students and industry partners.
3. Recognizing the importance of subject expertise, efforts will be made to collaborate closely with subject experts during the reframing of internship guidelines.
4. Regular reviews of course outcomes and internship guidelines will be conducted to stay responsive to evolving educational and industry needs. Faculty members will be encouraged to provide ongoing feedback for iterative enhancements.
