16. What are the strengths of the present Curriculum

- Plant physiology , human physiology same of the curriculum
- Semester II practical is difficult
- Compound 1st semester practical in to second semester practical is very easy
- Syllabus is adequate
- Syllabus is good and sufficient and it is enough
- Technology usage is good
- Technology usage was very good staff maintain punctuality
- 2nd semester the portion is opposite to 1st semester
- Human physiology syllabus is very excellent add new portion
- Syllabus is a very good practical is useful for me
- I have learn many information about human and plants technology is a building up of knowledge
- Staff also great the students all the opportunities given in all the students without partiality
- Approaching strength
- Important given for the development of problem solving skills and analytical skill
- Staff using ppt to take class it is very good
- Plant physiology excellent and simple
- Two major subject is easy
- Providing credits for lab training
- Teaching methods is excellent
- Taking running notes is helps to improve our laboratory
- Library usage

17. What are the weakness of the present curriculum

- Reduced plant physiology subject
- language problem
- hard to study two main subject
- need to improved the syllabus
- no weakness present in the curriculum
- Some unit are more topic the topic will less isgood for us
- The weakness of the present curriculum is not relevant to practical's and theory papers.
- Staff not used black board
- The human physiology are test continuously is most important and then related videos
- Including videos and images with subjects
- Technology it's not satisfied this semester because they give only not the general it give not syllabus
