Action Take Report for the academic year 2019-2020

As per recommendation of the different stake holders we have plan to make some of the changes in the curriculum of B. Com (CA). All the suggestions will be consider while revising the syllabus in next circle. In Financial Accounting-I, the topic of Rectification of Error and Bank Reconciliation Statement may be included in the syllabus Business Environment subject may be removed or restructured in the content of syllabus, because the topic of syllabus not specific and too complex

The topics like Absorption and Reconstruction may be included in the subject of Corporate Accounting –I which will helpful for higher studies like CA, ICWA and ACS etc.. As per request from Students we plan to minimize the syllabus of Financial Accounting and Business Law. As per expectation of the students and employers that curriculum to be focused on the expertise in computer skills and practical oriented. So based on this suggestion, we plan to include Tally latest version in the curriculum of B. Com (CA).
