Feedback analysis from Department Faculty on the M.Sc. Physics Curriculum (for students admitted from 2021-2022 onwards)

Analysis Report for 2022-2023

The PG and research department of physics received feedback from the Department Faculty for the years 2022-23. Based on the feedback given by our department faculty the analysis report was made.

From the previous Curriculum feedback, the current syllabus was well organized and it will be highly applicable to the present situation and needs of society. The internship was made compulsory, and application-orientated programs and skill-based courses were included.

Most of the faculties strongly agree with the course content, curriculum relevance needed for the present situation.
