**ACTION TAKEN REPORT- FEEDBACK REPORT OF STAKEHOLDERS- 2018-2019**

This report outlines the actions taken in response to the valuable feedback received from stakeholders regarding the curriculum. The feedback was collected through meetings, and direct communication, reflecting the diverse perspectives of stakeholders involved in the curriculum development process.

A key takeaway from the stakeholder feedback was a unanimous call for the integration of activity-based teaching and learning methodologies. Recognizing the merit of this collective perspective, the department has promptly embraced this recommendation.

Starting from the next academic year, the department successfully implemented activity-based teaching and learning as a fundamental component of our instructional approach. This strategic decision is aimed at fostering a dynamic and engaging learning environment, aligning our educational practices with contemporary pedagogical trends and the evolving needs of our students.
