**ACTION TAKEN REPORT- FEEDBACK REPORT OF STAKEHOLDERS- 2019-2020**

This document delineates the measures undertaken in response to the valuable feedback received from stakeholders concerning the curriculum. The feedback gathered through meetings and direct communication, mirrors the diverse perspectives of stakeholders actively engaged in the curriculum development process.

A significant finding from the stakeholder feedback was a collective emphasis on the integration of Information and Communication Technology (ICT) teaching pedagogies. Recognizing the importance of aligning our teaching methods with the evolving needs of education, the department has swiftly responded to this consensus.

In the upcoming academic year, the department proactively incorporated ICT teaching methods as a central component of the instructional approach. This strategic shift aims to enhance the learning experience for students, providing them with practical skills and competencies aligned with the demands of the digital era.
