GENERAL MEDICAL CAMP

The General Medical Camp was conducted at 11 PUPS & 5 PUMS schools and it was held on August 1st & 2nd week. The camp was organized in collaboration with Metro Hospital, Hosur. Dr. Deepthi with her team conducted the camp. 858 students were screened from the medical camps

WASH TRAINING

The wash training program was organized for children of level-II schools. There were 31 sessions were conducted and RPs were educating children about

personal hygienic like how to keep themselves clean, to wash their hands on regular basis and to take bath. There were 1635 children actively participated and benefited from the training.

NUTRITION SUPPLEMENTARY

Knowing the need of the students, LOIP Project has been providing nutritious snacks to the students. Snacks were made in a very hygienic manner without adding white sugar and making it completely out of grains and cereals. The purpose of distributing nutritious snacks to children is to encourage children to attend school. Nutrient supplementary was provided to all the students from Level II for 131 days. As an outcome of the activity, the project believed that it would have motivated the students to come regularly to school; in fact, it could reduce the absentees and open a way for new enrollment.

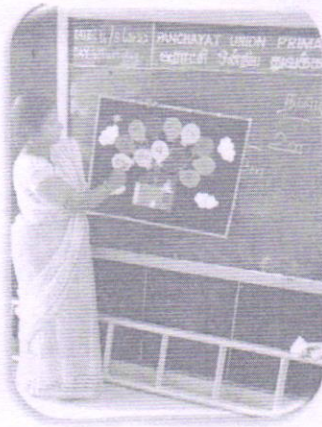

NUTRITION EDUCATION

28 sessions were conducted on Nutrient Education in all schools covered by Level-II. 1558 were educated on nutrition.
